System Administrator

DEAR

I am excited to apply for this position at your Company. As an experienced IT Administrator with a strong background in Linux system administration and network management, I am skilled in troubleshooting, system updates, and patch management to ensure IT infrastructure performance and security.

My actual role at DHL Express allowed me to manage undeliverables, handle manifests, and process imports efficiently, demonstrating my organizational skills and attention to detail.

Currently, I am expanding my expertise into web development with hands-on experience in HTML, CSS, JavaScript, and Python. Fluent in English, German, and Portuguese, I am adept at solving complex problems and collaborating across diverse teams. I am eager to leverage my IT and web development skills at your Company and contribute to innovative projects and solutions.

Thank you for considering my application. I look forward to discussing how I can contribute to your team.

Sincerely,

Klaus Raem
